The prices do not include the foundation or additional opening charges, these are futures charges you may incur if you purchase a monument or inter another person into the grave. Any grave purchased in addition to the Immediate Need grave being used will be charged at the rate of our standard full-size adult graves, currently \$1,300.00 each.

As required by law, 15% of the purchase price from each grave must go to the Maintenance & Preservation fund and \$4 per interment must be contributed to the NJ Cemetery Board.

**Please note that in the immediate need areas the cemetery chooses the grave location the day of the burial. We cannot guarantee any particular section will be able to be used on any given day. Many factors play into the choice in the immediate need areas, and we are not liable for the section that is ultimately chosen/used for the burial location.**

### Payment Types Accepted:

Monument Dealer Check, Cashier's Check, Money Order

We DO NOT accept personal checks or cash.

**We DO NOT pour foundations from December 1st through March 20th, later start depending on weather and availability of concrete delivery.**

Despite our pouring schedule, we suggest that monument dealers send orders in EARLY to be put in line for our upcoming concrete delivery. We will not rush a foundation order due to negligence on the monument dealer's part for not submitting the foundation order request when the family initially places an order for a monument.

We DO NOT permit monuments to be purchased online. We do not accept monument deliveries of monuments, or place monument on grave sites - monuments must be erected by a licensed monument dealer or monument setter. We advise that you place your order through a local reputable monument dealer. Before placing an order for a monument the monument dealer should call the cemetery to verify the size and style requirements for the section in which the monument/marker/headstone will be erected. The cemetery is not responsible for inaccurate information given to you by the monument dealer or funeral director. It is your ultimate responsibility to check and verify accuracy.

**The cemetery reserves the right to reject any monument dealer from doing business in our cemetery if there is any form of misconduct including but not limited to; destruction within the cemetery, failed payments, and not conforming to the rules.**

**The only material permitted is granite or bronze; we do not permit marble, limestone, or any other type of stone.**

**We do not permit vases or statues to be built into or attached onto a monument.**
