

11/06/2020

Effective Immediately

Due to rising cases of COVID-19 in New Jersey we need to implement restrictions for attendees of funeral processions. While we are not limiting the number of people attending, **we will be requiring the attendees to remain in their vehicle until the casket is on the lowering device and our workers have left the area, and they need to return to their vehicle before the casket is lowered.** If we do not have people complying we will return to limiting the number of people in addition to remaining in the vehicle.

If you cannot comply, we ask that you cancel or postpone your service until we are cleared from this pandemic.

Please SIGN AND RETURN (via fax or email) this form to receive access to the cemetery, if we do not have this form signed and submitted before your scheduled arrival day we will not be permitted to grant access to the cemetery for interment.
