Foundation and Permit Pricing

Effective August 1, 2024

Inscription, Photo, or Road Access Permit Fee - \$125.00

Flat Rate Foundation Fees

Foundation Size	Fee
24" x 12"	\$750.00
28" x 12"	\$850.00
28" x 16"	\$1,100.00

The above flat rate charges include the charge of 10% which as required by law goes toward the Maintenance & Preservation fund.

Standard Foundation Fees

\$2.45/square inch

Each foundation is subjected to an additional 10% or \$20.00 (whichever is greater) to go toward the Maintenance & Preservation Fund, as required by law. If you need assistance calculating the cost please contact us or utilize the foundation fee calculator on our website.

Rules, Regulations, and Expectations

Inscriptions and pre-poured foundations will be processed within 2 weeks of receiving/clearing of order and payment. All other foundation orders have a minimum 8 week processing period, assuming the grave is settled. When the foundation is complete your permits will be available in the online portal. If you do not currently receive your permit on the portal, please send your email address with your foundation order. You must schedule the setting date at least 24 hours in advance and we will add you to our schedule for installation.

We do not permit monuments to be purchased online. We do not accept deliveries of monuments, or place monuments on grave sites - monuments must be erected by a licensed & insured monument dealer or monument setter. We advise that you place your order through a local reputable monument dealer. Before placing an order for a monument the monument dealer should call the cemetery to verify the size and style requirements for the section in which the monument/marker/headstone will be erected. The cemetery is not responsible for inaccurate information given to you by the monument dealer or funeral director, nor are we responsible for inaccurate information given to the monument dealer by the purchaser. It is your ultimate responsibility to check and verify accuracy.

The only material permitted to be used in our cemetery is granite or bronze. We do not permit marble, limestone, or any other type of stone. We do not permit vases or statues to be built into or attached onto a monument. Photos placed on monuments are permitted, but the cemetery is not responsible if they become lost or damaged. Each foundation comes with a 10 year guarantee that it will hold the monument to the proper height and level for the area that is located.

We do not pour foundations from December through the end of March, or a later date depending on weather and availability of concrete delivery. Despite our pouring schedule, we suggest that monument dealers send orders in EARLY to be put in line for our upcoming concrete delivery. We will not rush a foundation order due to negligence on the monument dealer's part for not submitting the foundation order request when the family initially places an order for a monument.

All payments must be made electronically:
