Disclaimer

The cemetery does not endorse or promote any specific monument dealer. It is up to the person purchasing a monument to acquire price quotes and business referrals. This list is strictly for informational purposes only and contains monument dealers that generally do business in our cemetery. The list is in alphabetical order for your convenience. When placing an order for a monument there is a charge for the foundation which is required to go under every installed monument. You will pay the charge for the foundation directly to the monument dealer when you place an order for a monument. The current foundation fee pricing can be obtained from our office. Each section of the cemetery has a specific requirement for the monument style and you will only be permitted to erect a monument which matches the requirement. There are no exceptions to this rule.

★ **We suggest getting quotes, recommendations, and online reviews before signing contracts or putting any money down with any company.**

★ **We do not accept delivery of monuments from online-based dealers. Monuments must be hand delivered/installed on the grave by the monument company.**

When choosing a monument company:

- ☐ **Get Quotes**
 - ☐ **Make sure the material grade is comparable between quotes**
- ☐ **Read Online Reviews**
- ☐ **Ask for references from friends/family that have purchased a monument**
- ☐ **Ask Questions Regarding Processing Time and Installation**
 - ☐ **If you have questions regarding the foundation, contact the cemetery**
- ☐ **If your grave can hold multiple people, make sure you leave adequate space for future inscriptions. Single graves can hold a cremation interment along with a full-body interment.**
